## Retiree Membership Application

### MPELRA Retiree Membership Eligibility Requirements

Continuing membership is open to any person who, while a member of the Association, retires from their position. A member, who retired from a position where the preponderant duties were to represent or advocate the interests of a governmental employer or a nonprofit employer engaged primarily in providing service to the public, may be a retired member by paying the dues established for retired membership.

A retired member will remain eligible for membership, except when the member becomes employed in or accepts a position to represent or advocate for an organization not eligible for membership.
